ABOUT ME

Motivated PHP / Laravel Developer with hands-on experience building full-stack web applications including REST APIs, admin panels, and payment integrations. Passionate about writing clean, maintainable code and continuously growing through real-world projects. A collaborative team player who takes full ownership of features from database design and backend logic to UI development and delivery.

EXPERIENCE

BM Coder — PHP / Laravel Developer Nov 2025 – Present | Bhavnagar, Gujarat

- Building and maintaining full-stack Laravel 12 applications including REST APIs, admin panels, and payment integrations.
- Handling end-to-end features: database schema design, Eloquent ORM modeling, Blade UI development, and Vite asset bundling.
- Testing APIs using Postman and managing the codebase with Git version control in a collaborative team environment.

PROJECTS

CircleUp

Laravel 12 · PHP 8.2 · Laravel Sanctum · SQLite/MySQL · FullCalendar

- Sports court booking platform with 30+ REST API endpoints and full booking lifecycle (pending → confirmed → cancelled → completed) with role-based access control.
- Secure Email OTP with bcrypt hashing, brute-force lockout, rate limiting, and audit logging; FullCalendar for visual scheduling and unified search/filter UI.

YUZ In Progress

Laravel 12 · PHP 8.2 · Stripe · Cloudflare R2 · MySQL

- Built a dual-marketplace platform for renting objects and booking services with a structured multi-stage fulfillment workflow.
- Integrated Stripe for billing and wallet payments; Cloudflare R2 for media storage; built real-time chat, notifications, and a review and rating module.

Thank You Mate

Laravel 12 · PHP 8.2 · Laravel Sanctum · MySQL · Supervisor

- Labour marketplace with owner and worker roles covering job posting, applications, attendance, OTP-based auth, and real-time chat with conversation threading.
- Built admin panel for user management, platform activity monitoring, notification system, and dynamic legal page content management.
